Icd 10 code for excessive daytime fatigue

2016 2017 2018 2019 2020 2021 2022 Billable/Specific Code G47.10 is a billable/specific ICD-10-CM code that can be used to indicate a diagnosis for reimbursement purposes. The 2022 edition of ICD-10-CM G47.10 became effective on October 1, 2021. This is the American ICD-10-CM version of G47.10 - other international versions of ICD-10 G47.10 may differ. Applicable To The following code(s) above G47.10 contain annotation back-referencesAnnotation Back-ReferencesIn this context, annotation back-references refer to codes that contain:Applicable To annotations, orCode Also annotations, orCode First annotations, orExcludes1 annotations, orExcludes2 annotations, orIncludes annotations, orNote annotations, orUse Additional annotations that may be applicable to G47.10: G00-G99 2022 ICD-10-CM Range G00-G99Diseases of the nervous systemType 2 Excludescertain conditions originating in the perinatal period (P04-P96)certain infectious and parasitic diseases (A00-B99)complications of pregnancy, childbirth and the puerperium (O00-O9A)congenital malformations, deformations, and chromosomal abnormalities (Q00-Q99)endocrine, nutritional and metabolic diseases (E00-E88)injury, poisoning and certain other consequences of external causes (S00-T88)neoplasms (C00-D49)symptoms, signs and abnormal clinical and laboratory findings, not elsewhere classified (R00-R94) Diseases of the nervous systemG47 ICD-10-CM Diagnosis Code G47.10 2016 2017 2018 2019 2020 2021 2022 Non-Billable/Non-Specific Code Type 2 Excludes Sleep disordersG47.1 ICD-10-CM Diagnosis Code G47.12016 2017 2018 2019 2020 2021 2022 Non-Billable/Non-Specific Code Type 2 Excludesalcohol-related hypersomnia (F10.182, F10.282, F10.982)drug-related hypersomnia (F11.182, F11.282, F11.982, F13.182, F13.282, F13.982, F14.182, F14.282, F14.982, F15.182, F15.282, F15.982, F19.182, F19.282, F19.982)hypersomnia due to a mental disorder (F51.13)hypersomnia not due to a substance or known physiological condition (F51.1)primary hypersomnia (F51.11)sleep apnea (G47.3) Hypersomnia Approximate Synonyms Hypersomnia Hypersomnia (excessive sleeping) Hypersomnolence disorder Clinical Information A disorder characterized by characterized by excessive sleepiness during the daytime. A sleep disorder characterized by excessive sleepiness during the daytime. Excessive sleepiness. ICD-10-CM G47.10 is grouped within Diagnostic Related Group(s) (MS-DRG v39.0): 887 Other mental disorder diagnoses Convert G47.10 to ICD-9-CM Code History 2016 (effective 10/1/2015): New code (first year of non-draft ICD-10-CM) 2017 (effective 10/1/2016): No change 2018 (effective 10/1/2017): No change 2019 (effective 10/1/2018): No change 2020 (effective 10/1/2019): No change 2021 (effective 10/1/2020): No change 2022 (effective 10/1/2021): No change Code annotations containing back-references to G47.10: Type 2 Excludes: F51.1, F51.1 ICD-10-CM Diagnosis Code F51.1 2016 2017 2018 2019 2020 2021 2022 Non-Billable/Non-Specific Code Type 2 Excludesalcohol related hypersomnia (F10.182, F10.282, F10.982)drug-related hypersomnia (F11.182, F11.282, F11.982, F13.182, F13.282, F13.982, F14.182, F14.282, F14.982, F15.182, F15.282, F15.982, F19.182, F19.282, F19.982)hypersomnia NOS (G47.10)hypersomnia due to known physiological condition (G47.10)idiopathic hypersomnia (G47.11, G47.12)narcolepsy (G47.4) ICD-10-CM Diagnosis Code F51.1 2016 2017 2018 2019 2020 2021 2022 Non-Billable/Non-Specific Code Type 2 Excludesalcohol related hypersomnia (F10.182, F10.282, F10.982)drug-related hypersomnia (F11.182, F11.282, F11.982, F13.182, F13.282, F13.982, F14.182, F14.282, F14.982, F15.182, F15.282, F15.982, F19.182, F19.282, F19.982)hypersomnia NOS (G47.10)hypersomnia due to known physiological condition (G47.10)idiopathic hypersomnia (G47.11, G47.12)narcolepsy (G47.4) ICD-10-CM Codes Adjacent To G47.10 G46.5 Pure motor lacunar syndrome G46.6 Pure sensory lacunar syndrome G46.7 Other lacunar syndromes G46.8 Other vascular syndromes of brain in cerebrovascular diseases G47.0 Insomnia G47.00 unspecified G47.01 due to medical condition G47.09 Other insomnia G47.1 Hypersomnia G47.10 unspecified G47.11 Idiopathic hypersomnia with long sleep time G47.12 Idiopathic hypersomnia without long sleep time G47.13 Recurrent hypersomnia G47.14 due to medical condition G47.19 Other hypersomnia G47.2 Circadian rhythm sleep disorders G47.20 Circadian rhythm sleep disorder, unspecified type G47.21 Circadian rhythm sleep disorder, delayed sleep phase type G47.22 Circadian rhythm sleep disorder, advanced sleep phase type G47.23 Circadian rhythm sleep disorder, irregular sleep wake type Reimbursement claims with a date of service on or after October 1, 2015 require the use of ICD-10-CM codes. BILLABLE Billable Code Billable codes are sufficient justification for admission to an acute care hospital when used a principal diagnosis. Mental Health Mental Health Code Indicates that the ICD code is referenced in DSM-5 (Diagnostic and Statistical Manual of Mental Disorders, Version 5) | ICD-10 from 2011 - 2016 F51.11 is a billable ICD code used to specify a diagnosis of primary hypersomnia. A 'billable code' is detailed enough to be used to specify a medical diagnosis. Excessive daytime sleepiness (EDS) is characterized by persistent sleepiness and often a general lack of energy, even during the day after apparently adequate or even prolonged nighttime sleep. EDS can be considered as a broad condition encompassing several sleep disorders where increased sleep is a symptom, or as a symptom of another underlying disorder like narcolepsy, sleep apnea or a circadian rhythm disorder. Specialty: Neurology MeSH Codes: D006970, D006970, D006970, D006970, D006970, D006970, D006970 ICD 9 Codes: 291.82, 292.85, 307.43, 307.44, 327.1, 780.53, 780.54 Source: Wikipedia MS-DRG Mapping DRG Group #887 - Other mental disorder diagnoses. Persistent disorder of initiating or maintaining wakefulness (approximate match) This is the official approximate match mapping between ICD9 and ICD10, as provided by the General Equivalency mapping crosswalk. This means that while there is no exact mapping between this ICD10 code F51.11 and a single ICD9 code, 307.44 is an approximate match for comparison and conversion purposes. Parent Code: F51.1 - Hypersomnia not due to a substance or known physiological condition 2016 2017 2018 2019 2020 2021 2022 Billable/Specific Code R40.0 is a billable/specific ICD-10-CM code that can be used to indicate a diagnosis for reimbursement purposes. The 2022 edition of ICD-10-CM R40.0 became effective on October 1, 2021. This is the American ICD-10-CM version of R40.0 - other international versions of ICD-10 R40.0 may differ. Applicable To Type 1 ExcludesType 1 Excludes HelpA type 1 excludes note is a pure excludes. It means "not coded here". A type 1 excludes note indicates that the code excluded should never be used at the same time as R40.0. A type 1 excludes note is for used for when two conditions cannot occur together, such as a congenital form versus an acquired form of the same condition.coma (ICD-10-CM Diagnosis Code R40.22016 2017 2018 2019 2020 2021 2022 Non-Billable/Non-Specific Code Code Firstany associated:fracture of skull (S02.-)intracranial injury (S06.-)NoteOne code from each subcategory, R40.21-R40.23, is required to complete the coma scaleR40.2) The following code(s) above R40.0 contain annotation back-referencesAnnotation Back-ReferencesIn this context, annotation back-references refer to codes that contain:Applicable To annotations, orCode Also annotations, orCode First annotations, orExcludes1 annotations, orExcludes2 annotations, orIncludes annotations, orNote annotations, orUse Additional annotations that may be applicable to R40.0: R00-R99 2022 ICD-10-CM Range R00-R99Symptoms, signs and abnormal clinical and laboratory findings, not elsewhere classifiedNoteThis chapter includes symptoms, signs, abnormal results of clinical or other investigative procedures, and ill-defined conditions regarding which no diagnosis classifiable elsewhere is recorded.Signs and symptoms that point rather definitely to a given diagnosis have been assigned to a category in other chapters of the classification. In general, categories in this chapter include the less well-defined conditions and symptoms that, without the necessary study of the case to establish a final diagnosis, point perhaps equally to two or more diseases or to two or more systems of the body. Practically all categories in the chapter could be designated 'not otherwise specified', 'unknown etiology' or 'transient'. The Alphabetical Index should be consulted to determine which symptoms and signs are to be allocated here and which to other chapters. The residual subcategories, numbered .8, are generally provided for other relevant symptoms that cannot be allocated elsewhere in the classification.The conditions and signs or symptoms included in categories R00-R94 consist of:(a) cases for which no more specific diagnosis can be made even after all the facts bearing on the case have been investigated;(b) signs or symptoms existing at the time of initial encounter that proved to be transient and whose causes could not be determined;(c) provisional diagnosis in a patient who failed to return for further investigation or care;(d) cases referred elsewhere for investigation or treatment before the diagnosis was made;(e) cases in which a more precise diagnosis was not available for any other reason;(f) certain symptoms, for which supplementary information is provided, that represent important problems in medical care in their own right.Type 2 Excludesabnormal findings on antenatal screening of mother (O28.-)certain conditions originating in the perinatal period (P04-P96)signs and symptoms classified in the body system chapterssigns and symptoms of breast (N63, N64.5) Symptoms, signs and abnormal clinical and laboratory findings, not elsewhere classifiedR40-R46 2022 ICD-10-CM Range R40-R46Symptoms and signs involving cognition, perception, emotional state and behaviorType 2 Excludesymptoms and signs constituting part of a pattern of mental disorder (F01-F99) Symptoms and signs involving cognition, perception, emotional state and behaviorR40 ICD-10-CM Diagnosis Code R402016 2017 2018 2019 2020 2021 2022 Non-Billable/Non-Specific Code Type 1 Excludesneonatal coma (P91.5)somnolence, stupor and coma in diabetes (E08-E13)somnolence, stupor and coma in hepatic failure (K72.-)somnolence, stupor and coma in hypoglycemia (nondiabetic) (E15) Somnolence, stupor and coma Approximate Synonyms Daytime somnolence Drowsiness Drowsy Mental status, drowsy Sleepy Somnolence (sleepiness) Clinical Information A disorder characterized by excessive sleepiness and drowsiness. A sleep disorder characterized by excessive sleepiness and drowsiness.
